Since its inception, Himachal Pradesh National Law University, Shimla has worked towards excelling in becoming a research-oriented University. The prime objective of HPNLU, Shimla is not only to develop lawyers but professionals with dignified human qualities who serve as precious assets to society and the nation.

Legal education is no longer restricted to the four walls of the classroom but has transcended beyond these traditional boundaries. It involves an interdisciplinary approach to Law School, and its multiple utilities provide a wide range of options making it a coveted professional career choice. From entering the judiciary or assisting it in dispensing of justice through active litigation to the drafting of contracts for the business houses/ corporate world, trade law, and IPR issues to entering the private and sensitive zone for resolution of family disputes; to fighting for social causes by way of PILs or for aiming at correction of inequalities perpetrated at the vulnerable sections of society or entering pure academic pursuits for advanced legal education, the opportunities are diverse but immense.

The University has worked to create a platform for its students through which their talents and aspirations can be minutely groomed to enhance every student's individuality and intellect. Particular focus on the indispensable parts of an academic institution in law like research, moot court, legal aid, and many social and cultural exercises dependably gives an edge to the students.

The batch of 2023 is embarking on the placement process, raising the bar of standards set by their seniors by presenting their dynamic and diverse professional attributes to the potential recruiters. The students of this batch symbolise resilience and adaptability as they stand the test of these times.

On behalf of the HPNLU family, I extend the warmest welcome to your esteemed organisation to come, interact, and assess our students for their suitability to your organisation. In this regard, I find it fitting to mention that recruiting any of our students is not an expenditure that the Recruiter would be incurring but is like a long-term investment that would be made. Lastly, I would bring this message to an end with a quote from Alfred Tennyson's Ulysses, "To strive, to seek, to find, and not yield". We, at HPNLU, keep at the forefront this quote as a guiding force.

From the desk of **THE REGISTRAR**

I introduce the class of 2023 with much honour and pride. My professional and educational interactions with these students gave me insights into their futuristic vision and potential for a bright future, inspiring hope in the University that they will be heading HPNLU Shimla in the competitive climate of law and legal affairs. Students in this batch demonstrated their ability to maintain high academic standards and improve by participating in intellectually demanding dialogues, moot court competitions, workshops, and opportunities that came their way.

These students have helped shape the University into what it is today, both for themselves and the world. Their commitment and contributions helped the University reach its pinnacle of accomplishment.

The University is well-known for emphasising its students' holistic and integrated development into influential legal professionals, armed with a theoretical and practical awareness of the complexities and nitty-gritty of this demanding profession. This University's setting is a microcosm of the working world, cognitively pushing students to think more critically by exposing them to frequent National and International activities.

I was gratified with this batch for leading by example for their juniors by not allowing a global pandemic to stymie or deflect them from their clear-eyed goals. They have not only maintained their academic status, but they have also won Moots and other competitions, organised various University events and contributed in multiple ways through student committees and interpersonal relationships.

I am delighted to invite you to the Batch of 2023, which combines education mixed with innovation, values combined with opportunity, and self-centeredness centred on service to others.

From the desk of
THE COORDINATOR PAC

Greetings from Himachal Pradesh National Law University!

At Himachal Pradesh National Law University, we believe in the power of knowledge. Our program aims to produce attorneys, judges, public officials, and legal specialists with strong logical and analytical abilities, a strong interest in problem-solving and constant learning. The University's distinct research-based teaching style is designed to pique our students' interest and motivate them to seek answers to complex legal challenges.

Having taught the Batch of 2018-23 personally, I can vouch that they have exceeded expectations at every point. Their natural passion for understanding the law has led me to countless classroom conversations with them, during which they have demonstrated their eagerness to discover solutions to contemporary issues. They have also shown their earnestness, devotion, and capacity to advocate for themselves and the problems they support, abilities that will benefit them long beyond the classroom.

Many have worked on specialised research issues and developed concepts presented in papers, seminars, and conferences. By the time our students graduate, they will have mastered the instruments of achieving success, including independent thinking, problem-solving abilities, professional accountability, and legal concepts.

I am sure that the University's course structure has supplied the students with a critical awareness of legal ideas and technical information that each member of the legal system must have and that their capacity to absorb and apply this technical expertise has shaped them into appealing prospects for any prospective recruiter. With these remarks, I wish them all the best in their future endeavours and warmly welcome the potential recruiters who will direct them through the next stage of their lives.
